What is a Satellite

Satellites are one table shoot-out tournaments, in which there is only one winner. The purpose of these events is to provide players an opportunity to win their way into one of the NEPC main events. For example a player who wants to play in a $500 tournament could play in a 10 handed $500 satellite for $80. The winner of this satellite would receive $500 in Lammers and $150 in Cash, which they could then use to pay for the entry into the $500 tournament of their choice.

Types of Satellites
